CARE FOR THE ENVIRONMENT

Using eco-conscious products feels good and adds to any meal. Reflecting this, our collection offers a full choice of products which are designed with nature in mind.
For instance, our market leading range of compostable unicoloured napkins.

Duni

These not only help you to create great guest experiences – helping you to earn positive reviews – they also allow you to optimise the efficiency of your operations too.

BACK TO BASICS

Towel Napkins have a homely 'back to basics' design. They come flat-packed and crease-free, giving you total folding freedom.

"As more people move to busy towns and cities, the greater the demand for restaurants and cafes that offer a relaxing, homely mood."

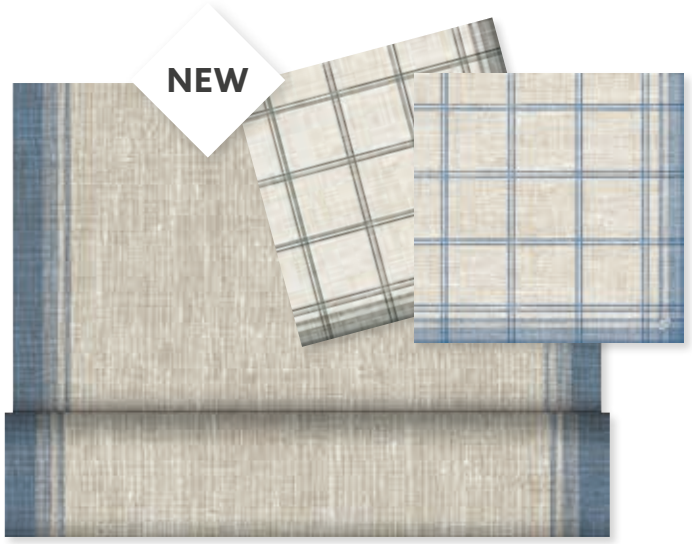

THE LONGING FOR A HOME AWAY FROM HOME

Urbanisation is reshaping modern life: people all over the world are flocking to cities and towns to realise their dreams. This is having a significant impact across the HORECA sector.

Today's urbanites seek out restaurants, hotels and cafes that offer a home away from home; a refuge from the hustle and bustle, where they can relax, recharge and share a goodfoodmood experience. The growing focus on healthy, locally sourced food and social dining concepts reflects this.

When it comes to design, managers are using light, peaceful colours and materials, as well as discreet patterns and living structures to create well-being. Hence why linen and neutral unicolours are currently so popular. They are also introducing features which promote togetherness, such as round tables.

Linus and Linus Classic

Tactile surfaces and cosy candlelight help make the comfortable, relaxed mood associated with home. New Candle Holder Urban and Candle Lantern Area in bamboo combines both.

Tête-à-tetes subtly bring people together - 'head to head' as the name suggests – adding to the sociability of any meal. With an authentic linen-like surface, they also introduce comforting tactility.

THE PASSION FOR PERSONAL

Thanks to digitalisation, networking and globalisation, personalisation has never been more popular. This can be seen everywhere, particularly in the different ways people are choosing to customise their homes, clothing and diets.

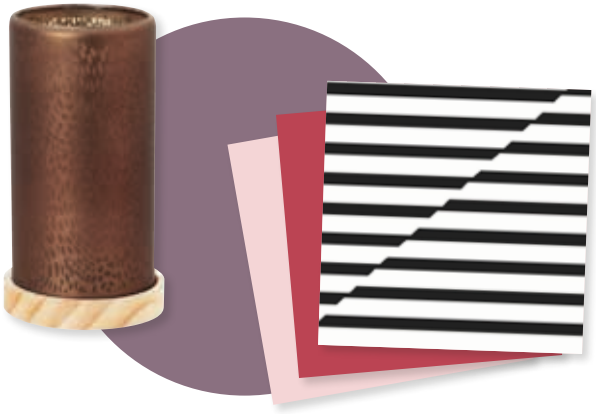

HORECA professionals are meeting the growing appetite for individuality in many ways. For instance, by providing unusual fusions of different cuisines, catering to specific dietary requirements, and selling unique 'home-made' food products.

On the design front, managers are aiming to create goodfoodmood with an ambience that is as original as it is personal. Depending on the required feel or occasion, they are mixing and matching old and new, handmade and industrial objects, as well as a variety of colours, patterns, structures and materials.

TWO IN ONE

Two-in-One. Smart products that offers two colours for the price of one, like Dunicel® reversible table covers, or two candle options in one, like Candle Holder 2 in 1, are ideal for individualisation.

MIX & MATCH

Mixing and matching is the purest form of personalisation – and it's at the heart of our collection. It offers a rich choice of coordinated colours, designs and materials that provide limitless ways to express your creativity and delight your guests.

CUSTOMISATION AND PROFILE PRINT

Profile printed items help your brand to stand out, ensuring it always stays 'centre stage' in front of your guests. What's more, they can also bring your brand outside your establishment too. We offer a one-stop-shop service for all customisation needs.

LED
MULTICOLOUR CANDLES

LED Multicolour candles let you personalise the mood at different tables with the touch of a button.

"The desire to create an individual world in today's globalised world is shaping consumption habits everywhere."

RECYCLED LEATHER

Our eco-conscious Leather concept combines reusable placemats, tête-à-têtes and reversible coasters, which are made from recycled leather.

"Sustainability is reshaping society and, with it, the HORECA industry. It's a cause for celebration and a great opportunity."

THE HUNGER FOR A BETTER WAY

Concern about climate change and the desire to make the world a better place is changing the world. Not so long ago, sustainability was seen as an option. Now, for many, it's simply the future.

The HORECA industry is rapidly evolving to match the way sustainability is changing society. For instance, there is growing focus on serving local, seasonal, healthy ingredients. There is also an increasing awareness around using resources smartly.

Design-wise, it's all about 'Art d'Eco'. In practice, this means colour palettes uniting verdant greens, earthy tones and mineral shades. Managers are also increasingly combining natural elements and technology to create sensory, authentic-feeling goodfoodmood for guests.

New compostable ecoecho® napkins send a strong signal about your care for environment. Mineral oil free, they come in pre-folded and standard formats for every need.

Made from upcycled glass – the bottom half of a bottle – new Candle Holder Aware gives what could have been waste, a beautiful new life.

Future-friendly LED Holder Feel made from recyclable cardboard.

Our award-winning compostable unicoloured napkins let you create individual 'Art d'Eco' palettes, and minimise environmental impact.

MINDFUL MATERIALS

At Duni we believe that, if we do not operate responsibly, there can be no real goodfoodmood. That's why we handpick raw materials that minimise environmental impact.

For our napkins, table coverings and plates, we use **wood fibre based materials** from forests that are **FSC®-certified** as responsibly managed. These have a low carbon footprint and support our strategy to protect forests and biodiversity.

In addition to these raw materials, we also offer an extensive choice of **compostable materials**. In fact, our range of compostable unicoloured napkins has been recognised with the Environmental Award at The Caterer's Product Excellence awards.

Reflecting this, the **water-based inks and dyes** we use in our products don't include the solvents that other inks and dyes do: they contain no harmful chemicals. What's more, they are approved for use in food contact and compostable materials.

Furthermore, we utilise **upcycled glass, recycled cardboard** and **recycled leather**, as well as **compostable Bagasse** – which is made with upcycled left-overs from sugar production. We also use corn starch to make bioplastics like **PLA** and **renewable traceable Stearin** for our candles.

PRIORITISING RESPONSIBILITY, SAFETY AND QUALITY

We work very closely with our suppliers to ensure they meet the highest standards – and, in doing so, keep the promises we make. They are all audited annually to ensure they uphold sustainable values, follow our stringent **Supplier Code of Conduct** and comply with all the relevant EU regulations.

CUSTOMISATION

WE CAN HELP YOU BUILD YOUR BRAND

Personalise your success

Our material and design experts can help you get the most out of your brand by providing smart customised solutions – whether you run a hotel, restaurant or café.

A one-stop-shop, we provide top-quality solutions for all customisation needs. In doing so, we offer a market-leading choice of eco-conscious materials, designs and colours.

Get the best of both worlds

Combining local support with a global network, we can deliver top quality profiled-printed napkins, table covers, slipcovers, tête-à-têtes, placemats and coasters. We can also emboss items and create specially made packaging.

These can make a big difference to the success of your business, helping you to project professionalism and simplify day-to-day operations.

Create your own concept

Even better, all the products we offer meet EU regulations and are designed to work together. So they make it easy to create an integrated concept.

Just like the solutions we offer, the process we use is proven and convenient. It reflects many years' experience of collaborating with leading HORECA brands to ensure you get exactly the right solution.
